Product Name: Nail On Keyway

Manufacturer: ERECT-A-LINE

Product Description: Nail On Keyway is a galvanized steel cold joint for concrete slabs. It has a tongue and groove shape that works as an effective load transfer device at slab joints. This has a radius formed key to minimize sharp angles and to achieve the maximum load available.

Composition and Materials: Nail On Keyway is manufactured from 24 gauge, 26 gauge, or 30 gauge galvanized domestic steel. It has 11/16" dowel knockouts every 6" and is produced in 10' lengths. Nail On Keyway with legs is manufactured as above with varying height legs for different depth pavement. Support legs are spaced 1' from each end with one in the center (3 legs per piece).

Sizes Available: Nail On Way is manufactured in 10' lengths with or without legs. Nail On Keyway with Legs can also be custom made for specific paving heights.

- #1065 Nail On Keyway 24ga
- #1055 Nail On Keyway 26ga
- #1054 Nail On Keyway 30ga
