Product Name: Standard Keyway

Manufacturer: ERECT-A-LINE

Product Description: Standard Keyway, a nail on keyway, is a galvanized steel cold joint for concrete slabs. It has a tongue and groove shape that works as an effective load transfer device at slab joints. This has a radius formed key to minimize sharp angles and to achieve the maximum load available.

Composition and Materials: Standard Keyway is manufactured from 24 gauge galvanized domestic steel. It has 1" dowel knockouts at 12", 24" or 30" centers and is produced in 10' 6" lengths. Standard Keyway with legs is manufactured as above with varying height legs for different depth pavement. There are 2 support legs per 10' 6" piece.

Sizes Available: Standard Keyway is manufactured in 10' 3" lengths with or without legs (billed as 10' pieces). Standard Keyway with Legs can also be custom made for specific paving heights.
